How to become a successful Entrepreneur? - Microsoft PowerPoint

Entrepreneurship

- ▶ Entrepreneurship as the process of designing, launching and running a new business
- ▶ The people who create these businesses are often referred to as **entrepreneurs**
- ▶ While definitions of entrepreneurship typically focus on the launching and running of businesses, due to the high risks involved in launching a start-up, a significant proportion of start-up businesses have to close due to "Lack of funding, bad business decisions, government policies, an economic crisis, lack of market demand, or a combination of all of these."
