About the University

Alagappa University, accredited with 'A+" Grade by NAAC (CGPA: 3.64) in the Third cycle of Assessment and Graded Category I University by MHRD-UGC is located at Karaikudi in Tamil Nadu. The University has secured 36th Position among Universities in India in the NIRF 2020 by MHRD. This University has emerged from the galaxy of institutions initially founded by the great philanthropist and educationist Dr. RM. Alagappa Chettiar. Alagappa University was brought into existence by a Special Act of the Government of Tamil Nadu in May 1985 with the objective of fostering research, development and dissemination of knowledge in various branches of learning. It has been recognized by the University Grants Commission (UGC) of India. The University has 16 Schools, comprising 44 Departments, 9 Centres, 2 Constituent Colleges and 3 Directorates. It has 46 affiliated Colleges in Sivagangai and Ramanathapuram Districts in its fold. Right now, 1.20 lakh students are pursuing their studies under various streams of the University. As a member of the Association of Indian University (AIU), as well as the member of the Association of Common Wealth Universities (ACU), it has established relations with other academic institutions, research laboratories and industrial establishments that promise a spectacular future. The University is having International Collaborations with Universities / Institutions of Higher Learning in countries like china, Malaysia, West Indies, U.S.A. and South Korea. Innovative programmes have been designed and offered at the University for the foreign students. 40 international exchange programmes attract the attention of the teachers and students from abroad. The University's motto is "Excellence in Action" and it keeps working towards the realization of the vision of excellence in all spheres of its action.

About the Department

The Department of Library & Information Science is functioning in the University since 2006 with the aim of providing up-to-date LIS education to the students through effective teaching programmes and practical training. The department is working with the vision to educate individuals for careers as librarians, documentalists, information professionals, archivists, information scientists and knowledge managers. The students are educated and trained in order to undertake instruction, research and service-oriented programmes which require knowledge on current emerging information technological developments and market requirements. Presently the department is offering M.Lib.I.Sc. (2 Years), M.Phil. and Ph.D. programmes in Library & Information Science through regular stream and it is also offering C.L.I.Sc, B.Lib.I.Sc, M.Lib.I.Sc. and PGDLAN through distance education mode..

About the Seminar

Thirst for knowledge is as old as civilization and attempts to preserve it have a glorious history. The invention of printing made an enormous impact which is beyond human expectation and imagination. Books will ever remain as unfailing companions to lonely individuals. Printed materials can never be replaced. But at the same time with the advent of digitisation, getting information and acquiring knowledge have become a little easier for scholars who have a passion for study and research. In today's world of knowledge explosion, judicial use of resources is very important for research. The modern technology helps to select the right materials for research and it is a great advantage to the researcher.

The seminar theme "Impact of Industry 4.0 in Sustainable Libraries" means Libraries these days are embracing new technologies and applications to adapt to the dynamic demands in the field of education and research, especially when information is easily available at the fingertips to scholars. Digital information is prominent in the present scenario, which helps the information seekers to access information without any barriers of space, format and time. This is further simplified with the open access initiative that facilitates improved access to scholarly literature. With the availability of large amount of data in various formats and platforms, many a time, users find it difficult to locate the required information. In this context, libraries and information professionals have a very important role to play in providing and educating the users to extract accurate and authentic information in an effective manner.

Who Should Attend?

✦ Librarians, Information professionals, LIS Teachers, Students and Research scholars.
✦ Content and knowledge managers
✦ Electronic, print and publishing community
✦ Corporate managers engaged in information retrieval
✦ Educationists and academicians
✦ IT service providers, information providers including vendors, aggregators

Themes Sub-Themes

LIS Education and Research in Digital Environment: LIS Curriculum, Research Trends in LIS, Relevance of Ranganathan's philosophy in digital environment Sustainable development of LIS Education in India, Role of Library associations in the development of LIS Education, Information Literacy, Knowledge based and innovative service for Teaching, Learning and Research - Carrier guidance - Scholarship.
